TEDDY LORENZ P GUANGCO

Backend Developer Intern (OJT)

+63 9153585132 | teddyguangco1@gmail.com |
tedsdev.vercel.app

Motivated fourth-year BSIT student focused on backend development. Experienced in building web applications and working with Node.js, PHP, MySQL, and MongoDB Atlas, including projects involving scheduling, inventory management, and public health information. Seeking an OJT opportunity to strengthen my backend skills, learn industry workflows, and contribute to reliable, practical software solutions.

EDUCATION

PHINMA Araullo University **2023 – 2027**
Cabanatuan City, Nueva Ecija
Bachelor of Science in Information Technology (BSIT) Major in System Development

Kinect Academy Inc. **2020 – 2023**
Gapan City, Nueva Ecija
INFORMATION AND COMMUNICATIONS TECHNOLOGY

Gapan North Central School **2017 – 2020**
Gapan City, Nueva Ecija

TECHNICAL SKILLS

- **Backend:** Node.js, PHP, server-side application development
- **Database:** MySQL, MongoDB Atlas, CRUD operations, database management
- **APIs & Integration:** REST APIs, JSON data handling, API integration
- **Tools & Deployment:** Git, GitHub, VS Code, npm, Render, Vercel
- **Web Technology:** HTML, CSS, JavaScript, Vue.js, Node.js, React Expo, React Expo, React Native
- **Professional:** Problem-solving, teamwork, time management, attention to detail

CERTIFICATIONS

- **2nd Innovex 2026: International Student Conference** — Horizon University Indonesia, [2026]

PROJECTS

CIT Scheduler (Capstone Project) | Node.js, MongoDB Atlas, Render, Vercel

- Built user-facing scheduling interfaces and dynamic input forms, connecting client-side components to backend endpoints and troubleshooting cross-origin resource sharing (CORS) configurations.

Public Health Information System

- Built a web-based platform for managing and visualizing public health data, with dashboards, real-time updates, and MySQL data storage.

Cinia's Inventory Management System

- Created an inventory management system with stock tracking, real-time updates, and collaborative features using JavaScript and MySQL.
